

Me complace presentaros nuestro nuevo catálogo que esperamos que cumpla vuestras expectativas. Está distribuido en 9 grupos de piezas, cada uno de ellos incluyen varias familias de productos.

En **CONTROL** se incluyen familias de productos fundamentales en el mantenimiento y las reparaciones como joysticks, cajas de mando, interruptores, mecanismos Schneider y Teknic, pilotos, potenciómetros... en fin, una amplia gama de productos de uso diario. En esta familia de productos RB añade mucho valor en piezas como joysticks o cajas de mando ya que son productos de nuestra oferta adaptable / compatible, se trata de joysticks y cajas de control de diseño y fabricación Españoles / Europeos y no asiático.

ENERGÍA compuesta por baterías y cargadores. En la parte de baterías podéis encontrar la gama completa para plataformas elevadoras de las marcas US Batteries de la que somos distribuidores MASTER para la península Ibérica y de TROJAN, también contamos en nuestra oferta con baterías de AGM.

Para los cargadores además de las primeras marcas contamos con modelos desarrollados en conjunto con fabricantes asiáticos con los que hemos logrado productos de gran calidad a precio competitivo, nuestra oferta contempla toda la gama, también los modelos que incluyen CAN BUS.

Más adelante tenemos **PIEZAS DE MOTOR**, que incluyen solenoides, motores de arranque y alternadores, motores y frenos eléctricos, filtros y partes de motor. Para este grupo normalmente contamos con productos originales y piezas de importación compatibles con las de origen con las que cubrimos las posibles necesidades.

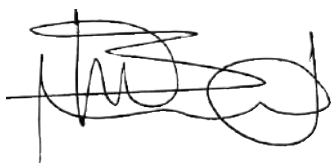

Con **ELECTRÓNICA** ocurre igual, una buena cantidad de productos originales unido a una oferta compatible para los productos estándar es suficiente para cubrir esta gama.

En **SEÑALIZACIÓN** nos encontramos con otra parte importante de nuestra fabricación, adhesivos de función y adhesivos de seguridad así como adhesivos corporativos de clientes forman parte de una gama que se fabrica en RB, complementando señalización encontramos acústicos y luminosos, que normalmente importamos para distribuir.

En **MATERIAL ELÉCTRICO** contamos con conectores, cables y mangueras, relés, finales de carrera, fusibles... esta es otra parte basada en la importación de productos.

PIEZAS DE METAL y COMPLEMENTOS e HIDRÁULICA, RUEDAS CAPOTS también son piezas que se compran para distribuir.

En estas pocas líneas os he resumido nuestra oferta, es humilde pero seguro que os ayudará a rebajar costes. Ésto, unido a nuestro trato cercano y siempre resolutivo, crean la fórmula base de RB.

José Manuel Bernad Vallés
